DISPOSABLE SUBDERMAL BENT NEEDLE ELECTRODES

**Description**

The needle hook is especially used in situations where you need to ensure the positioning of the same for long recordings such as IOM or brain death.

The product has been recently improved by automating the production and redesigning the bending angle, ensuring better contact with the skin and lower impedance of the electrode contact.

**Materials**

- Needle: Stainless steel
- Needle holder: PVDF
- Needle cover: PVC
- Lead wire: Cu/Sn with PVC jacket
- Connector: CuZn/Au with PVC jacket
- Packaging: PP

**Biocompatibility (UNI EN ISO 10993)**: Yes

**Sterilization method**: Ethylene oxide (ETO)

**Latex**: No

**Phthalates**: No

**Generic code**: MNXXXXXXXXXX

**Needle diameter**: From 0,20 to 0,40 mm

**Needle length**: From 10 to 22 mm

**Cable length**: From 8 to 250 cm

**Cable colour**: 
- Black
- Red
- Green
- Yellow
- Orange
- Blue

**Connector**: Touch proof DIN 42802, 1 mm Pin

**RoHS II**: ✓

**REACH**: ✓

*Different configurations available on request*
